THE ORIGIN OF TFA

Every great journey begins with a simple idea.

TESL (Triangle E-Sport League) is more than a Discord server. It is a community where friends, seniors, juniors, students, professionals, and business owners come together to share their free time. Whether playing games, watching movies, chatting in voice channels, or meeting in person, TESL has always been built upon friendship, respect, and shared experiences.

Among the many games enjoyed within the community, eFootball gradually became one of the most loved. Friendly matches became a daily tradition, creating exciting rivalries and unforgettable moments. Yet every match ended the same way—it was over, and nothing remained except the final score.

One day, a simple question was asked:

"What if every match truly meant something?"

That idea led to the creation of the TESL eFootball Cup, a tournament inspired by the FIFA World Cup. For the first time, every goal, every victory, and every defeat carried meaning. The success of the tournament inspired an even greater vision—not simply to organise competitions, but to build a living football ecosystem where Managers could create Clubs, build Squads, negotiate Transfers, manage finances, compete across Seasons, and leave behind a lasting legacy.

But above all, the goal was never just competition. It was to make football within TESL more exciting, more engaging, and more enjoyable for everyone while strengthening the friendships that had always been the foundation of the community.

To turn that vision into reality, the TESL Football Association (TFA) was established as the official governing body of football within TESL.

This Constitution is the foundation of that vision. It exists to ensure that every competition is conducted with fairness, transparency, consistency, and respect, while preserving the spirit of friendship, sportsmanship, and community that brought the members of TESL together in the first place.

May the game strengthen our friendships, inspire healthy competition, and create memories that will last for many Seasons to come.

PREAMBLE

We, the Members of the TESL Football Association (TFA) of the Triangle E-Sport League (TESL), united by our shared passion for football, friendship, and the spirit of competition, do hereby establish this Constitution as the supreme governing document of our Association.

We believe that football is more than a game. It creates excitement, unforgettable moments, healthy rivalries, lasting memories, and stronger friendships. While every Manager should strive for victory on the pitch, no victory shall ever be valued above the friendships, respect, and unity that first brought the members of TESL together.

The purpose of the TESL Football Association is not merely to organise competitions, but to create a living football ecosystem where every Manager can experience the excitement of managing a football Club—building a Squad, managing finances, negotiating Transfers, competing for trophies, and leaving behind a legacy across multiple Seasons.

We affirm that fairness, integrity, transparency, accountability, sportsmanship, and mutual respect are the foundations of every competition. At the same time, we recognise that a competition must remain exciting, engaging, dynamic, and enjoyable. Rules exist not only to govern competition, but to preserve its excitement and spirit. Therefore, every future decision, regulation, and Constitutional Amendment should uphold these principles while continually strengthening the excitement, enjoyment, and long-term future of football within TESL.

With this shared vision, we adopt this Constitution as the foundation upon which the present and future of the TESL Football Association shall be built, so that every Season tells a new story, every rivalry earns respect, every achievement is meaningful, and the spirit of TESL continues to unite us through the beautiful game.
